ALL tires must be clean, NO debris inside of them, or on them. They need to be dry unless due to rain, and in that case, it must be clean water.

No tire over four feet, nor wider than twelve inches. No forestry tires, none weighted, no airplane tires. At this time we will accept rims,

Business tires will NOT be accepted. You cannot charge residents to take their tires and then bring them to the tire collection. That is against the law. We accept resident's tires and tires collected from roadside and waters.

If your tires are NOT-they will NOT be accepted and you will have to *take them back* home.
